

BASIC EMT COURSE WINTER/SPRING 2016! BECOME AN EMT!

Learn how to respond to emergency calls to provide efficient and immediate care to the critically ill and injured. Learn how to determine the nature and extent of illness or injury while learning how to evaluate the need for emergency care. Students will be provided with the training needed to qualify for the National Registry of Emergency Medical Technicians examination and the state certification. To learn more about this course and Safety 911 New England visit www.safety911ne.com.

Safety 911 Educators is a fully accredited MA OEMS Training agency.
